

The Capital District Library Council

Invites you to attend

Understanding and Using Medical Terminology

Friday, April 24th
9am-1pm

MLA Accredited Class

**Capital District Library
Council**

Course Description: Participants will build a solid foundation of basic medical terminology through the study of word structure and definitions and review of NLM online vocabulary tools. This course helps participants learn pertinent medical terminology by teaching them to analyze and define medical terms and to explore new terms through a pathway of MeSH tree structures and the online MeSH browser.

Educational Objectives: Upon completion of the course, participants will be able to:

- Interpret parts of an annotated MeSH heading and a Tree listing to help in understanding a medical term; # define a word by dividing it into its components and analyzing them;
- Define the meaning of some basic prefixes and suffixes used in medical terms;
- Define the meaning of some principal root words used in medical terms;
- Use the online MeSH Browser and MeSH Trees to find additional terms in a body system, disease state, or procedure.

We are pleased to welcome our instructor, Margaret Peloquin, Head Librarian, Eastview and Riverside Campuses, Austin Community College, Austin, Texas.
